

# SINGING

**Draw a line from the type of singing to its description:**

- |                       |   |
|-----------------------|---|
| <b>choral singing</b> | a group singing in harmony                  |
| <b>throat singing</b> | no words just using voice as instrument     |
| <b>scat singing</b>   | singing while making other sounds in throat |

**Fill in the blank:**

Opera is like a \_\_\_\_\_ with music.

**Match the body part to its description:**

- |             |                   |
|-------------|-------------------|
| larynx      | muscles in throat |
| trachea     | voice box         |
| vocal cords | tube in neck      |

**Vocabulary words:**

- accentuate
- eliminate
- affirmative
- maximum
- minimum
- pandemonium

**Why can't you see sound vibrations?**

- \_\_\_\_\_ because they are compressed
- \_\_\_\_\_ air molecules are too small to see
- \_\_\_\_\_ they move away from you
- \_\_\_\_\_ they move too fast

- Inhalation means to** \_\_\_\_\_ keep warm with blankets  
\_\_\_\_\_ take breath in  
\_\_\_\_\_ let your breath out
