

# SPACE MUSIC I

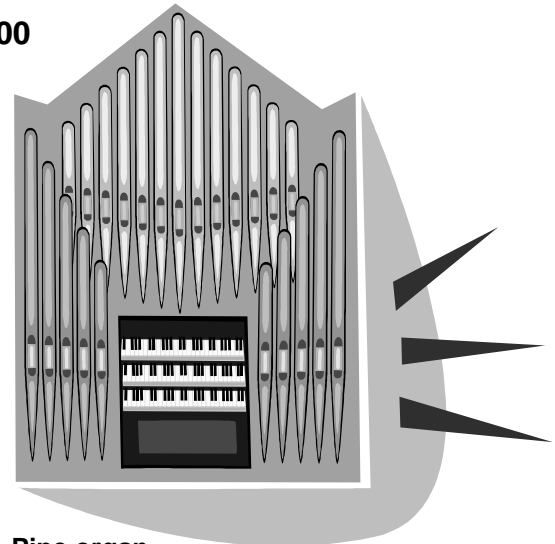

**Why are people weightless in the space shuttle?**

- there is no gravity inside
- there isn't any air inside
- the shuttle is falling with gravity

**If it takes the space shuttle 8 1/2 minutes to go up 200 miles, how many miles per minute did it travel?**

**Who was the composer of organ music we heard in the show?**

- Pachelbel
- Bach
- Strauss

Pipe organ

**Check the reason there is no sound in space:**

- no musicians in space
- no air in space
- no marching bands in space
- no light in space

**What do you call this "team" of musicians?**
