

# SYMPHONY

Put an "X" through the things that you *shouldn't* do at a symphony concert:

- enjoy the music      take a nap      read the program  
cough      stretch at intermission      yell  
applaud when everyone else does      talk out loud  
dress up      throw popcorn      thank the musicians

Look at the picture of the conductor. What is he holding? Circle it:

- a stick thingy      a ruler      a baton      a knitting needle      a chopstick

1756 - 1791

Jollip heard a piano concerto composed by W.A. Mozart.
