

MELODY II

REMEMBER: You can think of melody as a string of notes that has a rhythm.

Which ones are melody? Which ones are harmony? Write your answers below.

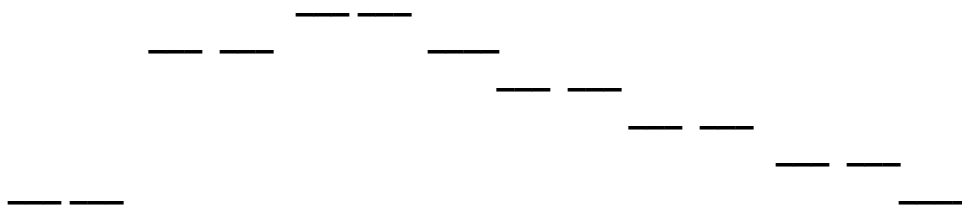

1. _____

2. _____

3. _____

4. _____

Melodies have shape, or contour. Look at the shape for “Twinkle, Twinkle Little Star.” First look at the musical example, then see if you can connect the lines beneath it to form a map of its musical contour:

On the back of this page, or on another sheet of paper, can you “map” the contour of “Sweet Georgia Brown?”

Can you unscramble these words? **K L E T W I N , K L E T W I N T L E L I T R A T S**

_____ , _____

REMEMBER: “High” and “Low” do not refer to volume (loud and soft) in music, but to pitch (high and low)!

This program was made possible by support from the National Endowment for the Arts.
