

**Remember:** *handbells come in all different sizes; there are handchimes too.*

There are many different types of bells.

There are big bells, and little bells, and bells you play in your hand.

Name three places where you have heard bells, or three things that have bells:

1. \_\_\_\_\_ 2. \_\_\_\_\_ 3. \_\_\_\_\_

Sometimes we want to make music notes sound higher or lower.

This is a sharp.  
Sharps make notes sound higher.

Draw some sharps in the box:

This is a flat.  
Flats make notes sound lower.

Draw some flats in the box:

Circle your answers:

Do you think Jollip is a good bell ringer? YES or NO

Have you ever rung any kind of bell? YES or NO

Do you like big bells or little bells? BIG BELLS or LITTLE BELLS
